

SOUTH HANTS AREA GROUP

Supported by EMGS and Scalefour Society

SHAG (*Phalacrocorax aristotelis*)

Weathering Workshop

An interactive and illustrated talk by Mick Bonwick

Tuesday 15th January from 7.30pm

at the South Hants Model Railway Club clubrooms, Fort Widley,
Portsdown Hill Road, Portsmouth PO6 3LS

The evening will cover many aspects of using an airbrush and other techniques for weathering model railways, from choosing appropriate equipment to applying the correct materials with relevant techniques

Mick Bonwick has extensive experience in the field of model railway weathering. He regularly teaches at Missenden Abbey and Pendon Museum Workshops

At the end of the evening members are invited to join the Portsmouth locals at the pub, just down the road before they go home.

Contents:

- Choice of equipment
- Selection of materials
- Appropriate tools
- Preparation of models
- Suitability of techniques
- Demonstrations of application processes
- Finishing and detailing
- Cleaning and maintenance of equipment
- Health and safety considerations

What will be provided:

- Some airbrush, equipment and paint for some interactive demonstrations
- **Models to work on**– To obtain the best experience from the evening, Mick recommends you bring a wagon, **preferably cleaned and ready for painting**. For large-scale modellers ('O' gauge and above), please don't bring anything too big. Students are also welcome to bring along road vehicles and/or buildings if they so desire.
- As there will be limited workspace and equipment, active participation will be on first come first served basis, as best we can arrange on the night.

- Tea, coffee and biscuits will be served during the evening

The meeting is open to all, whatever scale and standards you work in.

For directions to Clubroom please refer to the SHMRC website -
